

## CALL FOR PAPERS – RESTRICTED ACCESS TECHNICAL PROGRAM

IEEE Military Communications Conference (MILCOM) is the premier international conference on military communications. MILCOM has become the largest annual forum, featuring leaders from government, military, academia and industry around the world to discuss innovative research and cutting-edge technologies for military applications.

The MILCOM 2017 restricted-access technical program provides a venue for research related to U.S. Government programs that is not suited for full public or international release. The restricted-access technical program solicits technical papers with ITAR-controlled or FOUO materials.

### TOPICS INCLUDE

- Antenna and RF Technology
- Propagation and Channel Modeling
- Underwater Communications
- Tactical, Satellite, Optical, and Airborne Communications Networks
- System Architecture
- Anti-Jam Communications
- LPI/LPD/LPE Communications
- Survivable Communications and Networks
- Cyber Operations and Defense
- Radar System, Detection, and Localization
- Homeland Security
- Spectrum Management
- Autonomous Vehicle Communications
- System Modeling and Simulations
- Test Beds, Experiments, Exercises and Demonstrations

#### IMPORTANT DATES

##### TECHNICAL PAPERS

DRAFT PAPERS DUE:  
April 3, 2017

PAPER ACCEPTANCE NOTIFICATION:  
June 6, 2017

FINAL PAPERS DUE:  
July 18, 2017

PRESENTATIONS DUE:  
September 26, 2017

##### TUTORIALS AND PANELS

PROPOSALS DUE:  
April 4, 2017

ACCEPTANCE NOTIFICATION:  
June 6, 2017

MATERIALS DUE:  
September 12, 2017

Participants in the restricted access program must have an active U.S. security clearance that can be verified via the Joint Personnel Adjudication System (JPAS). The attendance restrictions make this portion of the program appropriate for papers, presentations, panels, and tutorials containing material that is For Official Use Only (FOUO) or export controlled.

Prospective authors are invited to submit original papers to the restricted access technical program by the deadline. Papers submitted to the restricted-access program must be approved to have Distribution Statement C (release to U.S. Government and contractors) or Distribution Statement A (full public release). Authors will be asked to verify that they have obtained this approval. Accepted papers will be presented at the MILCOM 2017 conference and will be provided to DTIC for distribution after the conference.

All submissions should be written in English in PDF format and with draft papers up to six (6) printed pages in length, two-column, single-spaced with 10-point font on US Letter paper. Final papers that exceed six (6) pages will be assessed a per-page over-length charge of \$350/page, up to a maximum of ten (10) total pages. The standard IEEE Transactions template for Microsoft Word and LaTeX formats can be found at <http://www.ieee.org/portal/pages/pubs/transactions/stylesheets.html>.

Prospective panel and tutorial organizers are also invited to submit panel topics, suggested panel members, and tutorial topics by the deadline.

Submit paper manuscripts and panel / tutorial proposals for the Restricted Access Technical Program via email to [milcom17@jhuapl.edu](mailto:milcom17@jhuapl.edu).
