

**Masahiro Sayano, Ph.D.**  
**The Aerospace Corporation**

Dr. Masahiro Sayano (IEEE Member 1993) has worked at The Aerospace Corporation since 1992, providing technical assistance to various communications system programs. Dr. Sayano has successfully managed several projects and, in the process, received an Aerospace President's Award along with other colleagues. For over 10 years he helped lead a Department of communication systems engineers as an Associate Director. He is currently supporting the Protected Anti-Jam Tactical SATCOM (PATs) program area within the Space and Missile Systems Center (SMC) at Air Force Space Command.

Dr. Sayano has B.S., M.S., and Ph.D. degrees from California Institute of Technology, has published a number of technical papers in communications and information theory, and jointly holds two patents on signal processing and communications.
