FBI CJIS Division

Booth: T6

Description: The Federal Bureau of Investigation (FBI) works to keep US citizens safe from threats both domestic and foreign. The primary investigative arm of the US Department of Justice, the FBI protects and defends the nation against such threats as terrorism, political corruption, white-collar crime, organized crime, cyber attack, and violent crime. With an annual budget of about \$8 billion, the agency operates 56 field offices, more than 400 resident agencies throughout the US, and 60 offices abroad within US embassies. The FBI was established in 1908 while Theodore Roosevelt was in the White House. The agency's motto has been "Fidelity, Bravery, and Integrity" since 1935.

Lastwall

Booth: T8, Sponsor

Description: Since 2017, Lastwall has been at the forefront of cybersecurity, dedicated to fortifying democratic institutions and bolstering the security posture of defense, government, and critical infrastructure partners. Deployed with the U.S. Department of Defense's Defense Innovation Unit since 2017, its mission is to safeguard organizations' users, data, cloud infrastructure, and IT networks to the highest security standards.

LASTWALL

Lastwall's Identity platform leverages Public Key Infrastructure and Quantum Resilient Cryptography to prevent unauthorized access to target services. Lastwall enables Zero Trust Architecture implementation, highly secure password-free user login-flow with commercial-off-the-shelf (COTS) devices, and robust streamlined IT administration. Its advanced authentication methodology (contextual factors & Webauthn FIDO-2 enabled passwordless MFA) protects third-party cloud services, IT systems, and private networks from credential-based and Multi-Factor Authentication attacks, post-breach lateral movement, and 'Steal-Now-Decrypt-Later' threats in a post-quantum environment. It adheres to NIST SP 800-53/63 control sets and has US DoD IL4/FedRAMP Moderate Authorizations in progress.

Strong Identity Assurance with Exceptional User Experience

NextgenID, Inc.

Booth: T9, Sponsor

Description: Welcome to the frontline of innovation and security in the identity technology sphere - NextgenID. Driven by a resolute passion for technology, we specialize in solving some of the most pressing identity challenges faced by governments, organizations, and individuals today. Our hard-earned wisdom, fortified by years of experience, has paved the way for the creation of Supervised Remote Identity Proofing (SRIP) - an industry-standard solution for combating identity theft while reinforcing identity assurance.

At NextgenID, we uphold a bold and inclusive belief: Identity is not just a privilege but a fundamental right and a universal requirement. This conviction extends to every individual, organization, and device contributing to our interconnected world. Our mission? To turn this belief into a reality by making Identity accessible, secure, and easy to manage.

Our pioneering ethos, encapsulated in our mantra - "Identity Starts Here™" is a beacon for those seeking to streamline identity management. We provide every entity with a unique, secure, non-repudiated Identity that integrates seamlessly across platforms. This enables risk-reduced authentication and access to a myriad of benefits and services.

As guardians of identity, we're committed to empowering a future where identities are not just recognized but universally valued. Through cutting-edge solutions, we are spearheading a transformative journey towards a safer, more transparent, and inclusive digital landscape

Radical Accuracy in Identity

Close the Generation Gap in ID Verification

Verifying identities for Generation Z is no easy task. Gen Z consumers often don't have a significant credit history, lack a clear digital footprint, and dislike friction in digital processes. However, Gen Z now makes up 20% of the population, meaning government agencies need to find a solution fast.

By using AI, superior data sources, and data science techniques, Socure has an industry-best approval rate of 93% for 18-25 year old users. We can identify more than 70% of 18-year-olds when they first arrive to open an account, which is 30% better than competitors.
