1:00 PM - 2:00 PM	The Lincoln Forum	Topic 2: Mitigating adversarial attacks on LLMs
2:00 PM - 3:30 PM	Washingtonian	Topic 1: Denying Threat Actors Anonymity (Problem Solving Sessions)
2:00 PM - 3:30 PM	The Lincoln Forum	Topic 2: Unlocking New Identity Capabilities by Leveraging AI and Large-Scale Datasets (Future Shaping Session)

**Built for
government.
Designed for
everyone.**
Identity verification, phishing-resistant authentication, and digital wallets—all in one platform.

1kosmos.com

SPONSORS/EXHIBITORS

1Kosmos, Inc.

Booth: T3, Sponsor

Description: The 1Kosmos platform empowers federal agencies and government contractors to perform instant, high-assurance identity verification during onboarding, credentialing, and account recovery. As the only platform to achieve both FedRAMP High authorization and Full Services Kantara Certification, we uniquely meet the most stringent federal requirements for sensitive systems and data security.

Our platform offers a secure, convenient digital wallet for phishing resistant authentication into agency services and high-impact federal environments. By unifying identity proofing, credential verification, and robust biometric authentication, 1Kosmos helps prevent identity impersonation, account takeover, and transactional fraud—supporting federal mandates for compliance, trust, and privacy while delivering seamless user experiences.

1Kosmos conducts millions of secure authentications daily, serving federal agencies, federal system integrators, and any regulated entities mandated to meet federal standards.

For more information, visit www.1kosmos.com and follow us on X, LinkedIn, and YouTube.

Product/Solution Categories: Biometric Authentication, Digital Identity Solutions, Identity-based Credential Management

Axiad

Booth: T2, Sponsor

Description: Axiad is a mission-first identity security company providing a comprehensive credential management system that secures digital identities across users, machines, assets, and interactions. Axiad Conductor (FedRAMP Authorized Platform) manages the credential lifecycle for phishing-resistant authenticators across hybrid, air gapped, and high security environments. Axiad Conductor ensures rapid issuance, Zero Trust readiness, and automated credential operations for Federal Civilian, DoD, IC, and Critical Infrastructure stakeholders.

Mission Ready Capabilities:

- PKI Modernization, PKI as a Service full Certificate Lifecycle Automation & Management (issuance, renewal, revocation, etc)
- Phishing-Resistant MFA (FIDO2, Yubikey, Smart Card, Certificate-Based Auth)
- Derived Credentials
- Interim / Temporary PIV-Compatible solution
- Air gapped & Critical Infrastructure Deployments
- Integrations with leading IAM such as: Microsoft Entra, Okta, Ping, ForgeRock
- Compliance alignment with EO 14028, OMB M-22-09, DODI 8520.04
- On-prem, hybrid, or cloud-native (FedRAMP ATO) deployment flexibility

Axiad hardens the authentication backbone of U.S. federal agencies. Our platform is built to support phishing-resistant access, Zero Trust mandates, and credential lifecycle automation at scale-without operational friction.

Product/Solution Categories: Digital Identity Solutions, Identity-based Credential Management, Secure Identity

General Services Administration (GSA)

Booth: T1

Description: Delivering effective and efficient government services for the American people

Website: login.gov/partners/

Product/Solution Categories: Biometrics/Identification, Identity-based Credential Management

ID.me

Booth: T1, Sponsor

Description: ID.me is the next-generation digital identity wallet that simplifies how individuals securely prove their identity online. Consumers can verify their identity with ID.me once and seamlessly sign-in across websites without having to create a new sign-in and verify their identity again. Over 152 million users experience streamlined sign-in and identity verification with ID.me at 20 federal agencies, 45 state government agencies, and more than 70 healthcare organizations. More than 600 consumer brands use ID.me to verify communities and user segments to honor service and build more authentic relationships. ID.me's technology meets the federal standards for consumer authentication set by the Commerce Department and is approved as a NIST 800-63-3 IAL2 / AAL2 credential service provider by the Kantara Initiative. ID.me is committed to "No Identity Left Behind" to enable all people to have a secure digital identity. To learn more, visit <https://network.id.me/>

KEYFACTOR

Keyfactor

Booth: T15, Sponsor

Description: Keyfactor brings digital trust to the hyper-connected world with identity-first security for every machine and human. By simplifying PKI, automating certificate lifecycle management, and securing every device, workload, and thing, Keyfactor helps organizations move fast to establish digital trust at scale — and then maintain it. In a zero-trust world, every machine needs an identity and every identity must be managed.
