HEIGHT AND NON BLOCKING RULES

NO HANGING SIGNS PERMITTED FOR ANY DISPLAY

LINEAR EXHIBITS (“IN-LINE”)

Back wall height limitation of all structures including logos is 8’.

Display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors. The maximum height of exhibits (including decorations) is 8’. All display fixtures over 4’ in height and placed within 10 linear feet of an adjoining exhibit must be confined to that area of the exhibitor’s space that is at least 5’ from the aisle line. No solid exhibit construction may exceed 42” in height except in the rear one-half of the booth. The intent of the height and depth restrictions is that each exhibitor is entitled to a reasonable sight line from the aisles regardless of the size of exhibit.

CORNER EXHIBITS

A Corner Booth is a Linear Booth (“In-Line”) exposed to aisles on two sides. All other guidelines for Linear Booths apply.

ISLAND EXHIBITS (20’X20’ OR LARGER)

An Island Booth is any size booth exposed to aisles on all four sides.

Dimensions: An Island Booth is typically 20’x20’ or larger, although it may be configured differently.

Use of Space: The entire cubic content of the space may be used up the maximum allowable height.

TABLETOP EXHIBITS

Height limit is 66” from the top of the table. (Table is 30” high)

Table Top Display Space (**this is *not* floor space**). Your display must not exceed 66” from the top of the table to the top of your display. Floor space for one narrow pull up banners is available in front of or behind your table. There is a height limit of 8’ for pull up banners.

Please refer to the diagrams immediately following for a pictorial description of the blocking rules and height restrictions.
