

JOB POSTING

CABLE TECHNICIANS

We have a significant project load, so we encourage technicians of all levels to apply.

We are looking for installers with experience in one or more of the following:

- Pulling and routing of category-rated and fiber optic cables in a new and existing facilities
- Terminating voice and data jacks
- Dressing and terminating distribution frames (66 or 110-blocks, patch panels)
- Testing cable/troubleshooting networking issues
- Installing support structures (ladders, racks, j-hooks)

The basic scope of work includes pulling, routing, installing and terminating structured cabling infrastructure in a commercial environment.

Basic Requirements

At least 3 months of experience installing voice and data systems in a commercial environment (technician level).
Ownership of basic telecom tools: Punch down, snips, wire strippers, cordless drill, hard-hat, boots, safety glasses, etc.
Familiarity with BICSI, EIA, TIA or NEC Standards.

Additional Responsibilities

Pulling and routing of copper and fiber optic cables.
Installing outside-plant cabling and working in confined spaces
Pole installation digging, tamping etc.
Installing support structures (ladders, racks, conduit)

Required Qualifications

Minimum 6 months of recent labor experience required
Able to lift 70+ lbs.
Computer literate preferred
Good oral and written skills
Reliable, detail-oriented and a team player
Ability to pass a pre-employment drug screen and government background check
Provide two professional references
Valid driver's license and reliable personal vehicle

Hours:

7:00am-3:30pm (Occasional overtime)

Location:

Kapolei/Campbell Industrial Park - Oahu, Hawaii

Salary:

TBD - based on experience.
