

## **Supporting the Mission through Data Mobility and Management**

**Robert Sadowski**

Account Manager, U.S. Federal Government  
HYCU

HYCU is the fastest-growing leader in the data management and mobility as a service industry. By bringing true SaaS-based data backup to both on-premises and cloud-native environments, mission partners are provided unparalleled data protection, migration, management and disaster recovery.

HYCU's award-winning, purpose-built solutions eliminate the complexity, risk and high cost of legacy-based solutions, providing data protection simplicity in a hyper-connected, multi-cloud world. Customers experience frictionless, cost-effective data backup and recovery, no matter where their data resides.

HYCU Protege provides application aware data management, data mobility and disaster recovery across multiple clouds to ensure mission partner data can be protected, available and recoverable in the event of human error, malicious attacks or natural disasters. With proven expertise in application aware and consistent backup, recovery and migration for on-prem and public cloud environments, HYCU Protege can offer a true enterprise class multi-cloud data protection solution.
